

PUZZLE TRENCADÍS

WHY THIS PUZZLE EXISTS

The Puzzle Trencadís began as an alternative to the usual souvenir. It takes trencadís, a technique I've worked with for years, and reworks it as a small wooden object: durable, easy to carry and made to be used in different ways.

Its 26 pieces can be assembled, rearranged, painted or customised. It can be a puzzle, a creative piece, a decorative object or a corporate gift.

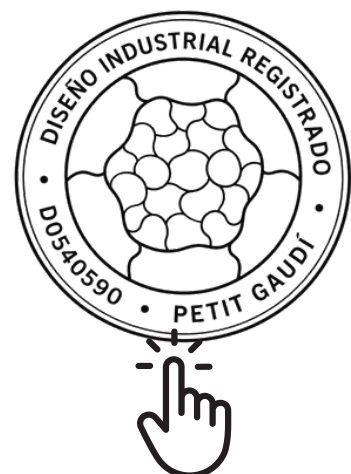

A different way to take Barcelona home. I hope it's the handmade gift you were looking for.
